Your speakers should reflect your lifestyle. They should seamlessly provide you with the high-end sound you expect without the high-end price tag. They should provide comfort to your home without cluttering up your life. And they shouldn't take an engineer to install. Musica speakers and accessories add breath-taking music to every room in your home and bring the magic of Hollywood into your home theater. Speakers designed to fit any configuration and any budget, Musica is a noteworthy new experience in music and movies.

In-wall Speakers

Whether you want to immerse yourself in the full surround sound experience or simply enjoy your favorite music, Musica In-wall speakers are designed for you. Our experience in speaker design goes into making these speakers sound as great as they look, including an in-wall subwoofer and center channel to complete your system needs. Attention to detail and state-of-the-art materials make Musica the reliable choice for all your custom requirements.

In-ceiling Speakers

You don't want big speakers taking up space in your bedroom or living room. And how do you fit a big cabinet speaker in your kitchen? No need to worry. With Musica In-ceiling speakers, you can put great sound in any room of your home without losing an inch of precious floor space. Models with Stereo Inputs will play 2-channel stereo sound from a single speaker for locations where space is limited.

Add-a-Zone Installation Kit

Musica Add-a-Zone systems are designed for ease of installation in both new construction and existing structures. They include everything you need to create a one room sound system or simply to add on to a larger one. With Musica's simplified In-wall/In-ceiling speaker system and accessories mounting techniques installation is well within the ability of the average do-it-yourselfer.

All Weather Speakers

Musica indoor/outdoor speakers extend your audio system to your backyard, pool, garage, bathroom, and anywhere else susceptible to the weather. These models include 2- and 3-way cabinets, in-ceiling, and stereo input models designed to handle the harshest conditions and environments. Corrosion resistant parts, sealed electronics protection, and input/wiring housing provide reliability and resiliency in the worst weather with the best performance.

Cabinet Speakers

Further achieve musical purity with Musica cabinet speakers when custom models aren't necessary and permanent installation isn't desired. Available in bookshelf and center channel designs, these sleek black speakers fit any décor and fill your room with sound, not big boxes. These cabinets are perfect for musical entertainment or multi-channel home theater.

Accessories

Complete your home audio experience and add convenience to your life with Musica accessories. From speaker switches to in-room volume controls, you can adjust the audio in each room to fit your listening needs.

MUSICASS6 Speaker Selector

- Control six speaker pairs in multi-room or surround sound applications
- Selectable impedance-matching and on/off push-button control
- Dual-amplified source switching capability
- Compact, low-depth size perfect for shelf or rack mounting. 19" rack mounting brackets included
- Can be used with one or two stereo amplifiers
- Impedance Protection Circuit
- Left and right channels are completely isolated for protected operation
- Screw terminals accept 12 to 24 ga. wire
- Separate on/off controls for each loudspeaker pair, and one A/B source selector switch for overall system control
- Power Handling: 40W RMS/120W peak music power

MUSICAVC-70ZS and MUSICAVC-50Z Volume Controls

- Provides precision level control in 3dB increments (Highest 6 Steps)
- 50W-70W RMS (100W-140W peak) rating achieves clear stereo music reproduction in 8 ohm applications
- Impedance-matching capability of 1X, 2X, 4X and 8X provides flexibility in system design
- 1X setting allows use as a standard 8 ohm, non-impedance matching volume control
- Low-profile styling is a favorite of architects and designers
- Decora-Style plate supplied in white, ivory, and almond
- Knob (MUSICAVC-50Z) or slider (MUSICAVC-70ZS) control for user preference

almond ivory white

Musica also offers a full line of wall plates and installation hardware, visit MusicaAtHome.com or call 800.566.5401 for a complete list.
